Datch 5 AMERICAN FOR GARDENS

TO ALL OUR CUSTOMERS AND FRIENDS

We again have pleasure in presenting to you our catalogue, listing all kinds of spring flowering bulbs. We added some varieties to our list, and we trust that you will find many interesting varieties in there. If anything you wish to have is not listed, please let us know, and we will supply it at the best market price.

Our sincere thanks to all customers who have favored us with their orders for the past season.

If you are planning to add more bulbs to your garden, we hope you will favor us with your esteemed orders, at an early date, so that prompt delivery can be made. We will be delighted in helping you to beautify your home and garden by supplying you with bulbs of the choicest and finest quality, which are bound to produce an abundance of flowers and bring joy and beauty in your garden and home next spring.

Every bulb will be carefully selected for you and is backed up by our guarantee to be topsize, sound and true to name and description.

Permit us to ask you to share this catalogue with your friends, or we shall be very pleased to send them a copy if you will let us have their names and addresses.

Associated Bulb Growers of Holland Sincerely yours,

THE HOLLAND BULB GARDENS, Inc. P. O. BOX 72, SALEM, MASS., U.S.A.

NURSERIES: LIMMEN, HOLLAND

SINGLE EARLY TULIPS

Single Early Tulips are all low growing, 12 to 14 inches, and are very suitable for formal beds, many varieties also for indoor forcing during the winter.

FLOWERS BRING JOY

FLOWERS bring joy. And in what way can the investment of so small a sum bring more lasting pleasure than in their purchase? Flower lovers well agree that of all blooms none give more pleasure for the slight trouble and expense involved in growing them than Spring flower bulbs — Tulips, Hyacinths, Daffodils, Crocuses and the like — for which Holland has so long been famous.

REAL QUALITY DOUBLE NOSE BULBS

Order early. Import only.

POETICUS NARCISSUS

INCOMPARABILIS NARCISSUS

The cup (chalice or crown) of the Incomparabilis Narcissus is larger than that of the Barrii Narcissus. It measures from one-third to nearly equal the length of the perianth segments. Like the Barrii they are much favored for cut flowers, for borders and for forcing.

Order several dozen or more for planting or placing on pebbles and water for forcing in succession. These bulbs may be started anytime during the winter and make splendid gift bulbs because anybody can grow them in the house. Please note these are the finest bulbs grown in France and assure the best results.

CROCUS

The prettiest and most popular early Spring flowers. Crocus can be planted in any place and they do not need any special care. Once planted they come back year after year with an increasing richness of flowers.

Indoor Beauty with Holland Bulbs

FLOWERS from bulbs bring joy not only for a long season in the Spring from March until June—but add their good cheer to dispel the dreariness of long Winter days. A few pots blooming on the window sill or in the Winter window garden, will change the whole atmosphere of the room and for this purpose they may be had in long succession, from Christmas to Easter. Here again their cultivation is of the simplest. All that is necessary is to place the bulbs in pots. The bulbs are placed with the tops just level with the soil surface, about half an inch below the rim of the pot. Allow them to make roots in some cool, dark place, water pots in cellar weekly, and then bring them into living room or sun porch to bloom, but not before the bud is three inches long. Bulb pans (shallow flower pots) with half an inch of broken pots, pebbles or crushed shell on the bottom for drainage, are used for planting. Hyacinths and many Daffodils may be grown directly in pebbles and water, in moist peat or bulb fibre (obtained from Seedsmen). Peat moss and bulb fibre should be thoroughly moistened before use. Allow them to make roots in a cool, dark place, under no circumstances place them into the living room before the bud is three inches long. The longer the pots remain in a cool place the better and when placed into the room or greenhouse, a moderate temperature is to be preferred. Avoid dry room temperature.

Bulbs set at proper depth for forcing.

Left: properly rooted to start forcing; right: stage at which increased heat and light can be given.

PLANTFOODS

Our Own Product — Superbloom

Not a plantfood, but a tonic to help your houseplants keep green and vigorous. It is very easy and economical to use; dissolve $\frac{1}{4}$ teaspoon of Superbloom in a quart of water, and use once a week.

CARTON, enough for about a year \$.25 Specially recommended for cacti, and to help your African Violets pro-duce lots of flowers; use it for your ferns, flowering plants, etc. PLEASE NOTE: Superbloom can only be ordered with further order,

as it cannot be sent separately.

Please order early. Import only.

No. 206 ANEMONES (See under Various Bulbs)

No. 202 SCILLA CAMPANULATA Use them freely for corners in your garden and for naturalizing. In lovely shades of pink, white and blue. Fine cut flowers, too.

TUBEROUS ROOTED BEGONIAS, Imported

Begonias do well in partly shaded spots, in soil, well enriched with leafmould, with certain amount of moisture. After flowering — until frost — lift bulbs, and store in dry and cool frost-free place until next Spring.

LARGE TUBERS ONLY

			per 100
			bulbs
	GIANT DOUBLE CAMELLIA FLOWERING		\$14.00
560.	SINGLE PLAIN	. 2.00	14.00

564.	PENDULA, or hanging basket type	2.30	18.00

Colors are: Scarlet, orange, salmon, rose, white, yellow, peach and deep red.

GLOXINIAS

Grow indoors warm and moist, shield from direct sunlight. Do not water overhead. On completion of blooming, watering should be discontinued and bulbs allowed to rest, to be started again next season.

565.	GLOXINIAS, m	nixed	colors	 5 bulbs for \$1.00
	In separate co	olors		er 50 bulbs \$9.00

LILIUM CANDIDUM, Madonna Lily\$.50 \$5.00)

Prepare the soil well for lilies, plant about 7 to 8 inches deep in a drainy spot. Give them time to settle. As a rule they do so much better the second season after planting and soon start to increase in size and multiply in number.

LILIES

HOW TO PLANT FOLLOW THIS CHART

Also see Guide to Successful Bulb Planting, packed with bulbs.

PLANTING OUT OF DOORS

The cultivation of these bulbs is simplicity itself. Provided only that one starts with sound, firm bulbs — obtained from a thoroughly reliable source failure is almost impossible. When planting out of doors, the soil is prepared as for other flowers, by being well dug and fertilized. Even in unfertilized soil the bulbs will usually give good flowers and for the best results it pays to be generous in the matter of fertilizing, using bonemeal. Each year some additional plant food can be given right after planting and again just after flowering. The purpose of the latter application is to develop good strong bulbs for next season's bloom. Good drainage is essential — particularly for Tulips. The depth to plant is about five inches. Planting is best done in October — and in some parts very well possible during early November. As all of the so-called Dutch bulbs are perfectly hardy, protectioning against frost is not essential, but many gardeners provide for a Winter covering after the ground freezes hard to prevent premature growth in the Spring and thus lessen the chance of injury from late frost.

HOLLAND BULBS

TULIPS, HYACINTHS, DAFFODILS, CROCUS AND MANY OTHERS. If you have not already ordered your Bulbs, DON'T WAIT. Planting time is near. Do not fail to enjoy some of these lovely Flowering Bulbs in your garden next Spring.

TERMS AND INSTRUCTIONS

- For U.S.A. all correspondence should be mailed to our SALEM, Massachusetts address.
- PRICES are quoted prepaid to destination in U.S.A.
- **PAYMENTS:** All orders under \$10.00 are cash with order. Orders for \$10.00 or more, if desired, can be accepted at 25% with order and balance C.O.D.
- **PREMIUM:** We pack a premium of nice bulbs with each order of \$10.00 and over. The premium will be a selection of bulbs according to size of your order. No premium with the standard parcels, as these prices do not allow any extras.
- GROUP ORDERS: Form a group, we have many customers in offices, schools, factories and garden communities who combine their orders in one. The individual orders are packed and labeled separately at no additional charge.
- GUARANTEE: WE DO GUARANTEE ALL FLOWER BULBS to be true to name and of extra high quality only.
- TIME OF SHIPPING: All bulbs will be shipped from Holland the middle of August onwards, so, if you want your bulbs early, kindly send in your orders as soon as possible.
- SUBSTITUTION: Only in the event of a variety being sold out, we shall take the liberty to send you the next best substitute and inform you about this, too, unless instructed by you to the contrary.
- COMPLAINTS: Shortages, damages or defects should be reported immediately upon unpacking the goods.
